DETAILED OFFICE ACTION

SPECIES ELECTION REQUIREMENT

This application contains claims directed to the following patentably distinct species:

Species of sample as set forth in claims 73 (polynucleotide) and 74 (protein) are distinct. The species are distinct because sample repository requirements as well as information pertaining to said a repository are different for instances of a polynucleotide library as compared to a protein library. Further, polynucleotide and protein repositories are separately described in literature thus presenting an undue burden of search if searched together. Applicants are to elect one of the following disclosed species of sample:

Species A (claims 73 and 75): a sample comprising a polynucleotide, or

Species B (claim 74): a sample comprising a protein.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 61-72 and 76-80 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
